2

Identify a WSU Faculty to mentor you for the duration of your project.

Suggestion:

Think about past classes where faculty was engaging, interesting and exciting. Reach out to that faculty and ask about availability. Having a topic before identifying a faculty can ensure they have knowledge in that subject area.

3

Discuss with your Faculty the topic/question/project that you want to answer or expand.

Suggestion:

Typical projects may include Literature Review, Research paper, or other approved creative projects.
